NASA SEWP VI Ordering Guide

NASA SEWP VI
Solutions for Enterprise-Wide Procurement

AXIOM
SCIENCE • ENGINEERING • CYBERSECURITY • TECHNOLOGY

SEWP OVERVIEW

NASA SEWP VI (Solutions for Enterprise-Wide Procurement), pronounced 'soup,' provides Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for Federal agencies and approved contractors. Created in 1993, SEWP has evolved from a technology-products vehicle into a broader Government-Wide Acquisition Contract (GWAC). The program is funded through a 0.34% usage fee and supports more than 50,000 orders annually.

FAIR OPPORTUNITY

FAR 16.505(b)(1) establishes fair opportunity procedures for orders under multiple-award contracts. The ordering Contracting Officer determines the method and documents the rationale for order placement. NASA SEWP's online Quote Request Tool (QRT) supports fair-opportunity consideration and quotation documentation.

ABOUT AXIOM

Axiom Consultants, Inc. is a technology, science & engineering, and management consulting firm supporting federal missions since 2008. Axiom delivers digital transformation, intelligent automation (RPA and AI), application development and sustainment, IT operations, cybersecurity, and program management for customers including NOAA, the Department of the Navy, and DISA.

NASA SEWP VI • AXIOM CONSULTANTS, INC.

Category B: 80TECH26D0860 | Category C: 80TECH26D1855

PURPOSE AND OVERVIEW

This guide explains how federal customers may request quotations, place orders, obtain support, and escalate issues under the Axiom Consultants, Inc. NASA SEWP VI Category B and Category C contracts. NASA SEWP VI is a ten-year Governmentwide Acquisition Contract (GWAC) providing Federal agencies streamlined access to Information Technology, Communications, and Audio-Visual (ITC/AV) products and services. With a $60 billion program ceiling and Best-in-Class designation, SEWP VI offers a pre-competed, compliant acquisition vehicle supported by the NASA SEWP Program Management Office (PMO).

AXIOM CONSULTANTS, INC.

Axiom provides federal technology, science and engineering, and mission support services, including digital transformation, robotic process automation and AI, application development and sustainment, IT operations, cybersecurity support, data management, and program management. Services offered under SEWP VI remain subject to contract scope and approved listings.

CONTRACT SUMMARY

Contract vehicle	NASA Solutions for Enterprise-Wide Procurement VI (SEWP VI)
Contract holder	Axiom Consultants, Inc.
Category B contract	80TECH26D0860
Category C contract	80TECH26D1855
Contract scope	Category B: Enterprise-Wide ITC/AV Services; Category C: Mission-Based ITC/AV Services
UEI / CAGE	NAJ5CENB9E68 / 7HKL5
Business size	Small Business, WOSB
SEWP fee	The contract permits a fee not to exceed 0.34%.
Ordering period	November 2026 to October 2036
Contract types	Firm-Fixed-Price, Time-and-Materials, Labor-Hour, Fixed-Price Award Fee, Fixed-Price Incentive-Fee, Fixed-Price Economic Price Adjustment, and hybrids
Company website	www.axiomconsultants.com

HOW TO REQUEST A QUOTE

Federal customers may submit Requests for Quote (RFQs), Requests for Information (RFIs), and Market Research Requests (MRRs) through the NASA SEWP Quote Request Tool. Axiom will respond through authorized SEWP procedures, based on the solicitation instructions and the services available under its contracts.

SEWP VI ORDERING PROCESS

01 Identify the requirement

The ordering agency determines its ITC/AV requirement and confirms it falls within SEWP VI scope.

02 Request a quotation

The agency submits an RFQ, RFI, or MRR through the SEWP Quote Request Tool, selecting Axiom among the Contract Holders for Fair Opportunity consideration.

03 Receive Axiom's response

Axiom responds within the RFI/RFQ's stated response window with a quote through the SEWP CHOP quote tool, reflecting current SEWP database-of-record pricing and accompanied by a CLIN verification file matching the quoted items.

04 Evaluate responses

The agency evaluates quotes under Fair Opportunity procedures (FAR 16.505(b)) and determines best value.

05 Issue an order

The agency issues a delivery or task order and submits it to the SEWP PMO at sewporders@sewp.nasa.gov.

06 SEWP order processing

The SEWP PMO validates the order, assigns a SEWP Control Number (SCN), and routes the order to Axiom.

07 Begin performance

Upon receipt of the order with an assigned SCN, Axiom begins performance and provides status updates through the SEWP CHOP portal and directly to the customer as required. Payment is accepted via Electronic Funds Transfer (EFT) and Government Purchase Card, regardless of order size.

FAIR OPPORTUNITY

SEWP VI is a multiple-award GWAC. Ordering agencies are responsible for complying with applicable Fair Opportunity requirements under FAR 16.505(b).

The NASA SEWP Quote Request Tool (QRT) is the recommended method for conducting market research and requesting quotations. The QRT assists agencies in distributing requirements to eligible SEWP Contract Holders and documenting the ordering process.

The issuing Contracting Officer is responsible for determining the applicable acquisition strategy, including competition, set-aside status, predominant NAICS code, evaluation methodology, and any applicable exception to Fair Opportunity.

QUESTIONS AND SUPPORT

NASA SEWP PMO: help@sewp.nasa.gov | www.sewp.nasa.gov

WHAT IS IN SCOPE FOR NASA SEWP VI?

SEWP VI covers a broad range of ITC/AV services. Category B supports enterprise-wide requirements, while Category C supports mission-based requirements. The service areas below reflect the SEWP VI scope structure; specific offerings must be verified against the applicable contract and current SEWP database of record. If you would like SEWP to determine whether your requirement is within scope of the SEWP VI contract, send an overview and/or Bill of Materials (BOM) to help@sewp.nasa.gov for a quick review and feedback.

CATEGORY B | ENTERPRISE-WIDE	CATEGORY C | MISSION-BASED
Enterprise-Wide Program Management and Ancillary Services	Mission-Based Program Management / Ancillary Services
Enterprise-Wide Network Services	Mission-Based Network Services
Enterprise-Wide IT Managed Services	Mission-Based IT Innovation Services
Enterprise-Wide IT Service Management	IT Operations and Maintenance / Help Desk / Call Center Support
Enterprise-Wide Innovation Services	Mission-Based Information and Data Analytics
Enterprise-Wide Information and Data Analytics	Mission-Based Application Services / Software
Enterprise-Wide Application Services / Software Development	Mission-Based Cybersecurity Services
Enterprise-Wide Cybersecurity Services	Mission-Based Cloud Services
Enterprise-Wide Cloud Services	Mission-Based Digital Multimedia and Technical Communications
Enterprise-Wide Digital Multimedia and Technical Communications	In-Scope Training
Enterprise Service Program Integration	

INSTALLATION, WARRANTY AND POST-DELIVERY SUPPORT

Installation, basic or extended warranty, software support, technical support, and other post-delivery obligations depend on the ordered solution and applicable order terms. Customers should contact the Axiom Program Manager for order-specific arrangements, support contacts, and escalation instructions. Do not assume that manufacturer warranties apply to all services.

ORDER ISSUES AND ESCALATION

For questions about a quotation, delayed order, delivery, invoicing, or post-delivery issue, contact Program Manager Will Swann first. If additional coordination is needed, contact Deputy Program Manager Katie Wright. Include the agency, order number, SEWP Control Number (if assigned), issue description, and requested resolution. Any formal contractual action must follow the order and Contracting Officer instructions.
